ST. PAUL, May 7.—A special from Jamestown, Dak., says that during a severe storm last evening a large number of frogs were precipitated to the ground from a cloud. It is claimed that a funnel-shaped cloud was seen in the west shortly before, and the theory is that the frogs were caught up from some slough in the whirlwind and carried by it until it spent itself.

Snow and Blizzard.

ST. PAUL, May 7.—It had been blowing hard all day yesterday and last night in the Northwest. The wind to-day increased to a gale and considerable damage was done.

Albany Topics.

ALBANY, May 8.—Grading for the street railway line commenced yesterday on the south end of the Lyon street line.

The first shipment of rails will be received this week from San Francisco. The street will be cut down sufficiently to receive the ties and rails, the top of the track being on a level with the surface of the street.

They will use large sized cars, arranged for either motor or horses. It is expected that the cars will be running by the fourth of July.

The committee appointed by the Board of Trade to raise funds for the purpose of advertising the city has secured subscriptions amounting to \$450. They expect to raise \$1000, and will do a good work.

On every train that arrives in this city come new comers who stop off here to look for locations, and many of them purchase property and locate here.

R. A. Irvine has purchased of Jos. Powell 160 acres near this city, paying for the same \$2400.

Several Jefferson men are in the city with a petition for a bridge at Jefferson, which will be presented to the county court.

Corvallis Notes.

CORVALLIS, May 8.—Our city is afflicted with a wife-beater. Mr. Matthews came home Saturday and found his dinner not done and his wife engaged in doing up the week's washing. She had been washing for other people all the week and was doing her own for Sunday. But Matthews concluded to relieve her of her work by throwing the washing out of doors. Then he emphasized his action by beating her. She had been arrested and taken before the recorder, tried and found guilty of assault and battery and fined \$25. He is in jail in default of payment of the fine.

William Dow, who lives twelve miles south of Corvallis, shot three fingers of his hand off, and part of his forefinger, Sunday. He was sitting on a fence with his gun resting on the ground and his hand over the muzzle, when in moving the gun it was discharged.

Dr. J. B. Lee was elected Mayor, Z. H. Davis, J. C. Taylor, and M. S. Neugrass, Aldermen; Recorder, Johnson Porter; Marshal, Jas. Dunn; Treasurer, Ed. Bier. On the cow question the vote was: For cows running at large, 171; against, 130. Majority for cows, 41.

San Francisco.

SAN FRANCISCO, May 7.—Trouble from landslides is feared by the Southern Pacific company along the Shasta division, where rain was falling heavily to day. Some small slides occurred, and the loosening of the ground has been so general in the cuts that much damage is threatened.

Snow has fallen to a depth of two feet on the Siskiyou range.

Burned to Death.

WESTCHESTER, N. Y., May 7.—The dwelling house of Watson Bowmes was burned last night and five persons burned to death. The household consisted of Watson Bowmes, his wife, mother, two children and two servants. It is supposed that the lamp left burning in the hall exploded. When Bowmes was awakened by the crackling of flames, the fire had already gained great headway. Bowmes gave the alarm and carried his wife into the open air. Both were severely burned. While Bowmes resuscitated his wife he could plainly hear the cries of anguish from his mother and his children, aged three and five, who were sleeping with their grandmother, but he was unable to save them. They perished together with Kate Dunn, the servant, and her sister Annie.

George, the Freak.

NEW YORK, May 7.—Contrary to expectations, George Francis Train did not break his fast yesterday, although he provided a regal banquet for a party of friends. He now declares he will not eat for 60 days. He has accepted an offer of \$1000 per week from a dime museum manager to lecture. He will pose, not as a freak, but as the exponent of a new discovery. He says he is sure the pancreas for poverty is to cease eating and is going to show the people how to do it. This is the eighteenth day of his fast. Train says he never felt better in his life.

The Trial Trip.

SAN FRANCISCO, May 7.—This morning the cruiser Charleston started on her trial trip. She steamed slowly around the bay at the rate of eleven knots, and passed through the Golden Gate. The Charleston will proceed direct to Santa Barbara channel, though on the way informal tests will be made. On her arrival she will be given time to prepare for her final test, which will be a severe one. On board the Charleston are only officers and men of the naval board. No special time has been set for her trial trip, but it will probably be decided on when she arrives at her destination. If the first trip is unsatisfactory another will follow.

The Senate Investigation.

NEW YORK, May 7.—Chauncey M. Depew testified before the senate investigation committee to-day. He thought the interstate commerce law should be amended to govern Mexican and Canadian roads having connections in this country. General Manager Hudson of the Grand Trunk testified and admitted that his road practically controls the rails between Chicago and Portland, Maine.

We have five lots left in Meredith's addition.

NEW YORK, May 7.—We have five lots left in Meredith's addition, near the university, from \$400 to \$550; new two story house, new barn and fence; full lot—set to fruit—near the depot for \$1550; new two story house and two full lots in Riverside.
